FLORAPRO GROW 10-12-22

GENERAL HYDROPONICS®

FEED PROGRAMS

FLORAPRO GROW 10-12-22

GUARANTEED ANALYSIS

Total Nitrogen (N)	10.0%
3.0% Ammoniacal Nitrogen	
7.0% Nitrate Nitrogen	
Available Phosphate (P_2O_5)	12.0%
Soluble Potash (K_2O)	22.0%
Magnesium (Mg)	3.5%
3.5% Water Soluble Magnesium (Mg)	
Sulfur (S)	4.5%
4.5% Combined Sulfur (S)	

Derived from: Ammonium nitrate, ammonium phosphate, ammonium sulfate, magnesium sulfate, potassium nitrate

Feeding range: (75-600 grams/100 gallons water) based on watering schedule and plant growth stage. Please refer to GeneralHydroponics.com for additional feed programs or follow the QR link above.

This product is intended for use with continuous liquid feed programs in high yield environments. Follow rate adjustment instructions on feed programs if not injecting CO_2.

DIRECTIONS FOR USE: 1 LB/GALLON STOCK SOLUTION
To match feed program rate recommendations, use entire 25 lb bag(s) and maintain a final ratio of 1 lb of powder per 1 gallon of finished stock solution.

IMPORTANT: Prepare each FloraPro product as its own individual stock solution.

1. **PREPARATION:** Determine the number of bags needed. NOTE: (1) Full bag creates 25 gallons of stock solution.
2. **INITIAL DISSOLUTION:** Fill your mixing tank with approximately 70% of the total required RO water (approx. 17 gallons per bag). Add the full bag(s) of FloraPro powder.
3. **AGITATION:** Blend or agitate thoroughly until the powder is fully dissolved.
4. **FINAL VOLUME:** Top off the tank with RO water to the total final volume (25 gallons per bag). This ensures a precise 1 lb/gallon concentration.
5. **INJECTION ORDER:** Always inject FloraPro Calcium + Micros concentrate into the main irrigation line before FloraPro Grow, Bloom or Late Bloom.

NOTE: Verify accuracy by benchmarking EC at a 1:200 dilution.

STORAGE & HANDLING:

ENVIRONMENTAL CONTROL: STORE IN A COOL, DRY, AND DARK LOCATION. AVOID EXPOSURE TO DIRECT SUNLIGHT AND EXTREME TEMPERATURES (PROTECT FROM FREEZING AND HIGH HEAT).

MOISTURE PREVENTION: PREVENT ANY WATER OR MOISTURE FROM COLLECTING IN OR AROUND THIS PRODUCT.

IMPORTANT NOTE: HIGH HUMIDITY MAY CAUSE THE FERTILIZER TO "CAKE" OR CHANGE ITS PHYSICAL TEXTURE. THIS DOES NOT ALTER THE CHEMICAL INTEGRITY OR EFFECTIVENESS OF THE NUTRIENTS.

KEEP OUT OF REACH OF CHILDREN

FLORAPRO GROW 10-12-22

FLORAPRO®

GROW
10-12-22

WATER SOLUBLE FERTILIZER

DESIGNED FOR COMMERCIAL USE

FloraPro® Grow 10-12-22 will provide your plants with excellent concentrations and ratios of nutrients to help optimize vegetative growth.

FloraPro® Grow fertilizer is designed to be used as part of the FloraPro® powder program to provide a complete fertilizer program.
