

FloraBlend® is a vegan plant booster that is fermented from a select blend of plant materials plus seaweed and rock powders.

Usage: Use FloraBlend during germination, with cuttings, plus the vegetative, flowering and ripening stages of plant growth.

For Hydroponics: Mix your usual nutrient solution and then add 5 to 10 ml of FloraBlend per 4 liters (1 to 2 teaspoons per Gallon).

For Soil: Add 5 to 10 ml per 4 liters of water (1 to 2 teaspoons per Gallon), then apply according to your normal watering schedule.
