FloraNectar® *SugarCane* **0-0-1**

Sweetener

Net Contents 1 Quart (946 ml)

FloraNectar® SugarCane

0-0-1 - Growing plants convert sunlight, water and minerals into sugar. FloraNectar is formulated with a combination of minerals and natural molasses. Simply Sweeter!

Usage:

During Vegetative growth apply:
5 ml (1 tsp) per 3.79L (1 US gallon).

During Flowering and Fruiting growth apply: 10 ml (2 tsp) per 3.79L (1 US gallon).

For best results in hydroponics, keep nutrient solution well aerated.

These values represent standalone use of this product. When mixing with additional products or base nutrients, please refer to **genhydro.com** for complete Feed Programs.

KEEP OUT OF REACH OF CHILDREN

STORE IN A COOL DARK PLACE

MIX THOROUGHLY
