Pro Performance Pack
Customized Performance

**FloraMicro® Pro**  
is used during a plant's growth and bloom cycles.

**FloraGro® Pro**  
builds strong roots during a plant's vegetative stage.

**FloraBloom® Pro**  
is for fruit and flower development.

**CALiMAGic™ Pro**  
corrects calcium and magnesium deficiencies.

**Floralicious® Plus Pro**  
enhances plant colors, vigor and aromatic qualities.

**Liquid KoolBloom® Pro**  
increases fruiting and flower development.

**RapidStart™ Pro**  
stimulates prolific root branching and development.

**Ripen® Pro**  
promotes increased flower, and essential oil production.

**FloraKleen® Pro**  
is used to dissolve mineral and salt buildup.

Products available in one quart size, and 6, 55 and 275 gallon sizes. Visit [generallyhydroponics.com](http://generallyhydroponics.com) for more details.

**Aggressive feed is most suitable for:**

- ≤1 irrigation event per day during peak production
- >#5 pot size, slow drybacks
- Low planting density
- Large, multi-topped cropping style

**Medium feed is most suitable for:**

- 1-5 irrigation events per day during peak production
- #2-5 pot size, intermediate drybacks
- Intermediate planting density
- Intermediate, topped/pinched cropping style

**Light feed is most suitable for:**

- >5 irrigation events per day during peak production
- 4", 6", #1 pot or block size, fast drybacks
- High planting density
- Small, untopped crops: sea of green style
